

WINTER HIKING

Every Tuesday

Starting December 4

11 a.m. - 2 p.m.

Elk Camp | Two Creeks | Smuggler | Albany Kittle | Tiehack

HIKING BOOTS

As with skiing, happy feet means a happy person at the end of the day. Choose a waterproof boot with some insulation to keep your feet warm and dry.

LAYERS, LAYERS, LAYERS!

Wear several layers made of fabric that breathes and dries quickly; cotton is not a good idea as it doesn't dry well. It's always better to have more layers than you need as it's easier to take them off than find additional layers.

It's also smart to pack an extra pair of gloves, a spare hat, and some dry socks to cover all of your bases.

YAKTRAX OR MICROSPIKES

Traction on your boots makes your winter hiking experience a lot safer and easier. Specialty outdoor shops like Ute Mountaineer or Aspen Sports sell these kinds of traction systems for your hiking boots, which will make hiking these packed trails seem effortless.

PLENTY OF FOOD AND WATER

Always make sure to pack plenty of food and water for your journey to stay well hydrated and maintain your energy. It's very important while you're out on the trails winter hiking in Aspen/Snowmass.
